Turcot interchange 14 from 18 March - closures expected

Hello,

From Thursday evening, March 14, to Monday morning, March 18, closures will be required in the Turcot Interchange to dismantle a segment of the old autoroute 15 over boulevard Pullman, on which various ramps of the interchange are currently located.

Difficult traffic conditions are to be expected on the network, particularly on Friday, March 15.

The closures from Thursday evening, March 14, to Monday morning, March 18, include:

- Closure of autoroute 15 southbound in the Turcot interchange
- Closure of the ramp from autoroute 20 eastbound toward autoroute 15 northbound
- Closure of the ramp from autoroute 15 northbound toward autoroute 20 westbound
- Closure of the ramp from autoroute 15 southbound to autoroute 20 westbound

To plan your commutes from March 14th to 18th here are four things to consider:

- Choose carpooling
- Opt for public transit: bus, metro, EXO commuter train
- Visit the [Mobility Montréal](#) website to discover the various tools designed to make your trips easier
- Follow the Ministère des Transports' feed on social media:
